SUMMARY

Creative and user-focused development and programming with a passion for crafting seamless digital experiences. Proficient in information technology, web design, troubleshooting, and editing.

TECHNICAL SKILLS

Coding	Multi Tasking
Software Design	Troubleshooting
API integration	Video / Photo Editing

PROFESSIONAL EXPERIENCE

Video Editor / Mobile Tester (Internship), Titan Technologies, Quezon City

February 2024 - May 2024

- Conducted thorough mobile app testing using Trello to track bugs, document issues, and manage testing workflows, ensuring smooth app performance across multiple devices.
- We use Cap Cut to edit high-quality videos that promote the Bagong Montalban app, ensuring the content aligns with our brand and enhances the user experience.

IT / Editor, Rcruit Asia, Rodriguez, Rizal

September 2024 - January 2026

- Led front-end development for web and mobile applications, building responsive, scalable, and user-centric interfaces.
- Architected and developed the mobile job-hunting application "Oddjob", overseeing the full development lifecycle from planning and prototyping to deployment and optimization.
- Implemented modern UI/UX principles to enhance usability, accessibility, and overall user experience.
- Produced and edited high-quality video content for digital marketing campaigns, branding initiatives, and social media platforms.
- Performed advanced image editing and visual enhancement to maintain consistent brand identity across digital assets.
- Conducted project research, feasibility analysis, and competitive benchmarking for new initiatives.

Android Mobile App Developer October 2025 - March 2026

I developed a simple Android-only gaming application called Farm Paradise using Flutter, designed as an earning app where users can collect in-game coins and convert them into real money. The game features interactive farming mechanics, a rewarding progression system, and a user-friendly interface to enhance engagement. I integrated Google AdMob for in-app advertisements to support monetization, while ensuring smooth performance and responsiveness across Android devices. Additionally, I implemented core game logic, coin management, and basic state handling to deliver a seamless user experience.

EDUCATION

Bachelor of Science Major in Information Technology Bachelor of Science Major in Information Technology,
Colegio De Montalban
